## Rewards #2

Completed

To the controller of the wallet [yUJw9a2PyogKkH47i4yEGf4WXomSHMiK7Lp29Xs2NgM](#)

We are seeking to make users whole to the extent possible. This is the amount you have agreed to return:

### Asset Amount

mSOL 799,155  
SOL 761,577  
BTC 281.498  
SRM 2,354,260  
ETH 226  
FTT 11,774  
BNB 608  
GMT 152,843  
RAY 98,295  
AVAX 1,809  
MNGO 32,409,565  
USDC 10,000,000

Most of these funds are currently in the control of the solana wallet [yUJw](#) and should be sent to the wallet owned by Mango Upgrade Council:

[9mM6NfXauEFviFY1S1thbo7HXYNiSWSvwZEhguJw26wY](#)

The 10,000,000 USDC can be sent either to the Upgrade Council solana wallet or the ethereum wallet setup by the developers:

[0xa8e8729A6AAb10178FBac1E9D55A0c536ce3DCa8](#)

Within 12 hours of the proposal opening, you shall send back the assets other than USDC, mSOL, MNGO, and SOL as a show of good faith. The remaining assets shall be sent within 12 hours once the vote is complete and passes.

The funds sent by you and the mango DAO treasury will be used to cover any remaining bad debt in the protocol. All mango depositors will be made whole. By voting for this proposal, mango token holders agree to pay off the bad debt with the treasury, and waive any potential claims against accounts with bad debt, and will not pursue any criminal investigations or freezing of funds once the tokens are sent back as described above.

This is an absurdly high bounty for such a low tier attack. Any dumb ass with enough money could have pulled this off. Lower the bounty to a reasonable level or fuck around and find out.

As several others have said, we should give him less of a bounty. He's dox'd and will be arrested - don't give him half! 25M total is more than enough.

As several others have said, we should give him less of a bounty because he is a criminal in no position to negotiate anymore. He's dox'd and will be arrested - don't give him ± \$50M ! 25M total is more than enough. Cut it by 50%. Cheers.

He's Mango account has a large amount of outstanding balance, this is an objective fact.

Mango team is f\*\*king brain dead and should be criminally investigated. They left this exploit open and are now paying out 40-50m bug bounty to a doxxed exploiter. Worst negotiation I have ever seen

Depositors to be made whole immediately. Everything else comes after.

Agree 100% that making users funds whole ASAP is the top priority but a \$50m "bug bounty" is ridiculous. At most the exploiter should get their costs back (\$15m?) plus \$10m. \$10m whitehat bounty is what was offered to the \$600m wormhole hacker. Mango can negotiate better than this, especially given the exploiter is essentially doxed

Only viable route forward is to make users whole. All else comes after that. Pretty sure Mango can still raise funds with VCs.

I am also wondering about the continuity of the Mango project, and plans for MangoMarketsV4. The proposal may have included an amount for keeping the project and the team going

I vote yes as the proposal puts the users - and their funds - first, however, with the Treasury mostly depleted, there are now serious concerns on the continuity of the project which have to be publicly addressed by Max, Daffy and rest of the team.

How will founders be able to continue building Mango with close to zero funds?
